## Summary

This report provides background data on United States arms sales agreements with and deliveries to its major purchasers during *calendar years* 1998-2005. In a series of data tables, it lists the total dollar values of U.S. arms sales *agreements* with its top five purchasers in five specific regions of the world for three specific periods: 1998-2001, 2002-2005, and 2005 alone, and the total dollar values of U.S. arms *deliveries* to its top five purchasers in those same regions for the periods 1998-2001, 2002-2005, and for 2005 alone. In addition, the report provides data tables listing the total dollar values of U.S. arms *agreements* with and *deliveries* to its top 10 purchasers *worldwide* for the periods 1998-2001, 2002-2005, and for 2005 alone.

This report is prepared in conjunction with the annual CRS report for Congress entitled: CRS Report RL33696, *Conventional Arms Transfers to Developing Nations, 1998-2005*, by (name redacted). That report details both U.S. and foreign arms transfer activities globally, and provides analysis of arms trade trends. The intent here is to complement that elaborate *worldwide* treatment of the international arms trade by providing only the dollar values of United States arms sales agreements with and delivery values to its leading customers, by geographic region, for the calendar years 1998-2001, 2002-2005, and 2005. Unlike CRS Report RL33696, this report focuses exclusively on U.S. arms sales, provides the specific names of the major U.S. arms customers, by region, together with the total dollar values of their arms purchases or deliveries. This report will not be updated.

This report provides background data on United States arms sales agreements with and deliveries to its major purchasers during calendar years 1998-2005. It provides the total dollar values of U.S. arms *agreements* with its top five purchasers in five specific regions of the world for the periods 1998-2001, 2002-2005, and for 2005, and the total dollar values of U.S. arms *deliveries* to its top five purchasers in five specific regions for those same years. In addition, the report provides a listing of the total dollar values of U.S. arms agreements with and deliveries to its top ten purchasers for the periods 1998-2001, 2002-2005, and for 2005. The data are official, unclassified, United States Defense Department figures compiled by the Defense Security Cooperation Agency (DSCA), unless otherwise indicated. The data have been restructured for this report by DSCA from a *fiscal year* format to a *calendar year* format. Thus a year in this report covers the period from January 1-December 31, and *not* the fiscal year period from October 1-September 30.<sup>1</sup>

### U.S. Agreements with Leading Purchasers, 1998-2005

The following five regional tables provide the total dollar values of all U.S. defense articles and defense services *sold* to the top five purchasers in each region indicated for the *calendar year(s)* noted. These values represent the total value of all government-to-government *agreements actually concluded* between the United States and the foreign purchaser under the Foreign Military Sales (FMS) program during the calendar year(s) indicated.<sup>2</sup> In a separate table, the total dollar values of all U.S. defense articles and defense services *sold* to the top ten purchasers *worldwide* is provided for *calendar year* period noted. All totals are expressed as *current* U.S. dollars.

<sup>1</sup> The Defense Security Cooperation Agency (DSCA) publishes an annual volume providing these data in a *fiscal year* format. This publication is titled *Foreign Military Sales, Foreign Military Construction Sales, and Military Assistance Facts*. It provides detailed U.S. annual transactions with countries and international organizations for the most recent ten *fiscal* years, as of the date of publication, as well as aggregate data for these transactions since FY1950. See DSCA website for this data under DSCA Facts Book at <http://www.dsca.osd.mil/>. For detailed *worldwide* arms transfer data for U.S. and foreign suppliers and recipients, see CRS Report RL33696, *Conventional Arms Transfers to Developing Nations, 1998-2005*, by (name redacted).

<sup>2</sup> Current U.S. law and regulations do not require U.S. companies to provide, routinely and systematically, data on arms sales *agreements actually concluded* with foreign purchasers resulting from *commercial licenses authorized* by the U.S. State Department. Thus, with one very notable exception relating to the United Arab Emirates (U.A.E.) in 2000, the *agreement* data in the following tables *do not* include the values of U.S. licensed commercial sales.
