Summary

Names for Navy ships traditionally have been chosen and announced by the Secretary of the Navy, under the direction of the President and in accordance with rules prescribed by Congress. Rules for giving certain types of names to certain types of Navy ships have evolved over time. There have been exceptions to the Navy's ship-naming rules, particularly for the purpose of naming a ship for a person when the rule for that type of ship would have called for it to be named for something else. Some observers have perceived a breakdown in, or corruption of, the rules for naming Navy ships. On July 13, 2012, the Navy submitted to Congress a 73-page report on the Navy's policies and practices for naming ships.

For ship types now being procured for the Navy, or recently procured for the Navy, naming rules can be summarized as follows:

- **Aircraft carriers** are generally named for past U.S. Presidents. Of the last 14, 10 were named for past U.S. Presidents, and 2 for Members of Congress.
- **Virginia (SSN-774) class attack submarines** are being named for states.
- **Destroyers** are named for deceased members of the Navy, Marine Corps, and Coast Guard, including Secretaries of the Navy.
- **Littoral Combat Ships (LCSs)** are being named for regionally important U.S. cities and communities.
- **Amphibious assault ships** are being named for important battles in which U.S. Marines played a prominent part, and for famous earlier U.S. Navy ships that were not named for battles.
- **San Antonio (LPD-17) class amphibious ships** are being named for major U.S. cities and communities, and cities and communities attacked on September 11, 2001.
- **John Lewis (TAO-205) class oilers**, previously known as TAO(X)s, are being named for people who fought for civil rights and human rights.
- **Lewis and Clark (TAKE-1) class cargo and ammunition ships** were named for famous American explorers, trailblazers, and pioneers.
- **Expeditionary Fast Transports (EPFs)**, previously called Joint High Speed Vessels (JHSVs), are being named for small U.S. cities.
- **Expeditionary Transport Docks (ESDs) and Expeditionary Sea Bases (ESBs)**, which were previously called Mobile Landing Platform (MLP) ships and Afloat Forward Staging Bases (AFSBs), respectively, are being named for famous names or places of historical significance to U.S. Marines.

The Navy historically has only rarely named ships for living persons. Since 1973, at least 18 U.S. military ships have been named for persons who were living at the time the name was announced. Seven of the 18 have been announced since January 2012; three of the 18 have been announced in 2016.

Members of the public are sometimes interested in having Navy ships named for their own states or cities, for older U.S. Navy ships (particularly those on which they or their relatives served), for battles in which they or their relatives participated, or for people they admire.

Congress has long maintained an interest in how Navy ships are named, and has influenced the naming of certain Navy ships. The Navy suggests that congressional offices wishing to express support for proposals to name a Navy ship for a specific person, place, or thing contact the office of the Secretary of the Navy to make their support known. Congress may also pass legislation

relating to ship names. Measures passed by Congress in recent years regarding Navy ship names have all been sense-of-the-Congress provisions.

Background

July 2012 Navy Report to Congress

On July 13, 2012, the Navy submitted to Congress a 73-page report on the Navy's policies and practices for naming ships.¹ The report was submitted in response to Section 1014 of the FY2012 National Defense Authorization Act (H.R. 1540/P.L. 112-81 of December 31, 2011).² The executive summary of the Navy's report is reprinted here as **Appendix A**.³

Authority for Naming Ships

Names for Navy ships traditionally have been chosen and announced by the Secretary of the Navy, under the direction of the President and in accordance with rules prescribed by Congress. For most of the 19th century, U.S. law included language explicitly assigning the Secretary of the Navy the task of naming new Navy ships.⁴ The reference to the Secretary of the Navy disappeared from the U.S. Code in 1925.⁵ The code today (10 U.S.C. §7292) is silent on the issue of who has the authority to name new Navy ships,⁶ but the Secretary of the Navy arguably retains implicit authority, given the location of Section 7292 in subtitle C of Title 10, which covers the Navy and Marine Corps.

¹ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, 73 pp. As of March 23, 2016, the report was posted at <http://www.dtic.mil/dtic/tr/fulltext/u2/a569699.pdf>.

² For the text of Section 1024, see the entry for H.R. 1540/P.L. 112-81 in **Appendix A**.

³ For an article providing a critical perspective on the Navy's report, see Norman Polmar, "Report on Ship Naming Falls Short," *Seapower*, October 2012: 6-7.

⁴ A law approved in 1819 (Res. of March 3, 1819, §1, 3 Stat. 538, No. 7) stated "That all of the ships of the navy of the United States, now building, or hereafter to be built, shall be named by the Secretary of the Navy, under the direction of the President of the United States" in accordance with rules specifying that ships of the first class were to be named after states of the Union, and second and third class ships were to be named, respectively, after rivers and principal cities and towns. A law approved in 1858 (Act of June 12, 1858, c. 153, §5, 11 Stat. 319) provided a similar rule for "steamships of the navy," except that third-class vessels (those with fewer than twenty guns) were to be named by the Secretary of the Navy as the President may direct, taking care that no two vessels in the Navy shall bear the same name." §1531 of the Revised Statutes of 1873-1874, citing the 1819 and 1858 laws, states: "The vessels of the Navy shall be named by the Secretary of the Navy, under the direction of the President" in accordance with rules similar to those above, varying slightly depending on whether the vessel was a sailing ship or a steamship. In 1898, Congress passed a law (Act of May 4, 1898, c. 234, 30 Stat. 390 [appropriations for the naval services]) prescribing rules for the naming of "first-class battle ships and monitors," which specified that these were to be named after States and "shall not be named for any city, place, or persons until the names of the States, shall have been exhausted." The provision did not explicitly state whose duty it would be to assign names to vessels. Congress repealed this provision in 1908 as it pertained to monitors, permitting those vessels to be named "as the President may direct." (Act of May 13, 1908, c. 166, 35 Stat. 159.)

⁵ The reference to the Secretary of the Navy found in §1531 of the Revised Statutes of 1873-1874 (see previous footnote) is absent from the U.S. Code of 1925, which covers Navy vessel names in Title 34, §461-463.

⁶ 34 U.S.C. §461-463 of the 1925 U.S. Code (see previous footnote) were later recodified as 10 U.S.C. §7292. 10 U.S.C. §7292 provides that battleships are to be "named for a State. However, if the names of all the States are in use, a battleship may be named for a city, place, or person." It specifically authorizes the Secretary of the Navy to "change the name of any vessel bought for the Navy," §7292(c), but does not explicitly assign responsibility for ensuring that no two vessels have the same name, §7292(a), or for naming battleships, §7292(b).

Navy's Process for Selecting Names

In discussing its name-selection process, the Naval History and Heritage Command—the Navy's in-house office of professional historians—cites the above-mentioned laws and states:

As with many other things, the procedures and practices involved in Navy ship naming are as much, if not more, products of evolution and tradition than of legislation. As we have seen, the names for new ships are personally decided by the Secretary of the Navy. The Secretary can rely on many sources to help him reach his decisions. Each year, the Naval Historical Center compiles primary and alternate ship name recommendations and forwards these to the Chief of Naval Operations by way of the chain of command. These recommendations are the result of research into the history of the Navy and by suggestions submitted by service members, Navy veterans, and the public. Ship name source records at the Historical Center reflect the wide variety of name sources that have been used in the past, particularly since World War I. Ship name recommendations are conditioned by such factors as the name categories for ship types now being built, as approved by the Secretary of the Navy; the distribution of geographic names of ships of the Fleet; names borne by previous ships which distinguished themselves in service; names recommended by individuals and groups; and names of naval leaders, national figures, and deceased members of the Navy and Marine Corps who have been honored for heroism in war or for extraordinary achievement in peace.

In its final form, after consideration at the various levels of command, the Chief of Naval Operations signs the memorandum recommending names for the current year's building program and sends it to the Secretary of the Navy. The Secretary considers these nominations, along with others he receives as well as his own thoughts in this matter. At appropriate times, he selects names for specific ships and announces them.

While there is no set time for assigning a name, it is customarily done before the ship is christened. The ship's sponsor—the person who will christen the ship—is also selected and invited by the Secretary. In the case of ships named for individuals, an effort is made to identify the eldest living direct female descendant of that individual to perform the role of ship's sponsor. For ships with other name sources, it is customary to honor the wives of senior naval officers or public officials.⁷

The July 2012 Navy report to Congress states:

Once a type/class naming convention [i.e., a general rule or guideline for how ships of a certain type or class are to be named] is established, Secretaries can rely on many sources to help in the final selection of a ship name. For example, sitting Secretaries can solicit ideas and recommendations from either the Chief of Naval Operations (CNO) or the Commandant of the Marine Corps (CMC), or both. They can also task the Naval Heritage and History Command to compile primary and alternate ship name recommendations that are the result of research into the history of the Navy's battle force or particular ship names. Secretaries also routinely receive formal suggestions for ship names from concerned citizens, active and retired service members, or members of Congress. Finally, Congress can enact provisions in Public Law that express the sense of the entire body about new ship naming conventions or specific ship names. Regardless of the origin of the recommendations, however, the final selection of a ship's name is the Secretary's to make, informed and guided by his own thoughts, counsel, and preferences. At the appropriate time—normally sometime after the ship has been either authorized or

⁷ Naval History and Heritage Command, "Ship Naming in the United States Navy," accessed online on February 10, 2014, at <http://www.history.navy.mil/faqs/faq63-1.htm>.

appropriated by Congress and before its keel laying or christening—the Secretary records his decision with a formal naming announcement.⁸

Naming Rules for Ship Types

Evolution Over Time

Rules for giving certain types of names to certain types of Navy ships have evolved over time. Attack submarines, for example, were once named for fish, then later for cities, and most recently for states, while cruisers were once named for cities, then later for states,⁹ and most recently for battles. State names, to cite another example, were given to battleships, then later to nuclear-powered cruisers and ballistic missile submarines, and are now being given to attack submarines.

The Naval History and Heritage Command states that “While the Navy has attempted to be systematic in naming its ships, like all institutions it has been subject to evolutionary change, and the name sources of the Navy’s ships have not been immune to this change.... How will the Navy name its ships in the future? It seems safe to say that the evolutionary process of the past will continue; as the Fleet itself changes, so will the names given to its ships.”¹⁰ The July 2012 Navy report to Congress states that “US Navy ship-naming policies, practices, and ‘traditions’ are not fixed; they evolve constantly over time.”¹¹ The report also states that “Just as [ship] type naming conventions change over time to accommodate technological change as well as choices made by Secretaries, they also change over time as every Secretary makes their own interpretation of the original naming convention.”¹²

Exceptions

There have been numerous exceptions to the Navy’s ship-naming rules, particularly for the purpose of naming a ship for a person when the rule for that type of ship would have called for it

⁸ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 3. At the end of this quoted passage, there is a footnote (number 3) that states:

Although there is no hard and fast rule, Secretaries most often name a ship after Congress has appropriated funds for its construction or approved its future construction in some way—such as authorization of either block buys or multi-year procurements of a specific number of ships. There are special cases, however, when Secretaries use their discretion to name ships before formal Congressional approval, such as when Secretary John Lehman announced the namesake for a new class of Aegis guided missile destroyers would be Admiral Arleigh Burke, several years before the ship was either authorized or appropriated.

In connection with the above passage, the lead ship of the DDG-51 class of destroyers was named for Arleigh Burke on November 5, 1982, about two years before the ship was authorized and fully funded. (Congress authorized the ship in the FY1985 National Defense Authorization Act [H.R. 5167/P.L. 98-525 of October 19, 1984], and fully funded the ship in H.J.Res. 648/P.L. 98-473 of October 12, 1984, a joint resolution making continuing appropriations for the fiscal year 1985, and for other purposes.)

⁹ Cruisers named for states were nuclear-powered cruisers.

¹⁰ Naval History and Heritage Command, “Ship Naming in the United States Navy,” accessed online on February 10, 2014, at <http://www.history.navy.mil/faqs/faq63-1.htm>.

¹¹ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 10.

¹² Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 25.

to be named for something else.¹³ The July 2012 report to Congress cites exceptions to ship naming rules dating back to the earliest days of the republic, and states that “a Secretary’s discretion to make exceptions to ship-naming conventions is one of the Navy’s oldest ship-naming traditions.”¹⁴ The report argues that exceptions made for the purpose of naming ships for Presidents or Members of Congress have occurred frequently enough that, rather than being exceptions, they constitute a “special cross-type naming convention” for Presidents and Members of Congress.¹⁵ (This CRS report continues to note, as exceptions to basic class naming rules, instances where ships other than aircraft carriers have been named for Presidents or Members of Congress.)

Some observers have perceived a breakdown in, or corruption of, the rules for naming Navy ships.¹⁶ Such observers might cite, for example, the three-ship Seawolf (SSN-21) class of attack submarines—*Seawolf* (SSN-21), *Connecticut* (SSN-22), and *Jimmy Carter* (SSN-23)—which were named for a fish, a state, and a President, respectively, reflecting no apparent class naming rule.¹⁷ The July 2012 Navy report to Congress states: “Current ship naming policies and practices

¹³ Ohio (SSBN-726) class ballistic missile submarines, for example, were named for states, but one (SSBN-730) was named for Senator Henry “Scoop” Jackson of Washington, who died in office in 1983. Los Angeles (SSN-688) class attack submarines were named for cities, but one (SSN-709) was named for Admiral Hyman G. Rickover, who served for many years as director of the Navy’s nuclear propulsion program. Ticonderoga (CG-47) class cruisers were named for battles, but one (CG-51) was named for Thomas S. Gates, a former Secretary of the Navy and Secretary of Defense.

¹⁴ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 7.

¹⁵ The report states that

the decision of the [Navy’s 1969] Riera Panel [on Navy ship names] to remove members of Congress from the destroyer naming convention resulted in a now four-decade old, *bipartisan* practice of honoring members of Congress with long records of support to the US military with ships names selected and spread across a variety of ship types and classes. Orthodox Traditionalists decry this development as an unwarranted intrusion of “politics” in Navy ship naming practice. But this is a selective interpretation of the historical record. Secretaries of the Navy have been naming ships for members of Congress for nearly a century in order to honor those extraordinary elected leaders who have helped to make the Navy-Marine Corps Team the most powerful naval force in history.

Like many Pragmatic Secretaries of the Navy before him, Secretary [of the Navy Ray] Mabus endorses and subscribes to this special naming convention....

Objections to Secretary Mabus’s decision to name a ship in honor of Congressman Murtha generally fall into one of four categories. The first are Orthodox Traditionalists who naturally complain that his selection represents a corruption of the LPD 17 naming convention. However, as outlined above, the choice is perfectly consistent with the special cross-type naming convention that honors Legislative Branch members who have been closely identified with military and naval affairs, which has been endorsed by Secretaries from both parties and Congress....

In summary, while USS John P. Murtha represents an exception to the *established* LPD 17 [amphibious ship] class naming convention, it is completely consistent with the *special* cross-type naming convention for honoring famous American elected leaders, including both Presidents and members of Congress with records of long-term service and support to the US armed forces.

(Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 28-30. Italics as in original. See also pp. 37, 41, 42, 44, 47, 68, and 73.)

¹⁶ See, for example, Donald R. Bouchoux, “The Name Game,” *U.S. Naval Institute Proceedings*, March 2000: 110-111; Norman Polmar, “Misnaming Aircraft Carriers,” *U.S. Naval Institute Proceedings*, September 2006: 30-31; Norman Polmar, “Misnaming Navy Ships (Again),” *U.S. Naval Institute Proceedings*, February 2009: 89; and Norman Polmar, “There’s a Lot in a Name,” *U.S. Naval Institute Proceedings*, April 2012: 88-89; Carl Forsling, “A Plan To Fix The Navy’s Broken Ship Naming System,” *Task and Purpose*, May 6, 2015.

¹⁷ See, for example, Norman Polmar, “There’s a Lot in a Name,” *U.S. Naval Institute Proceedings*, April 2012: 88-89, (continued...)

fall well within the historic spectrum of policies and practices for naming vessels of the Navy, and are altogether consistent with ship naming customs and traditions.”¹⁸

Rules for Ship Types Now Being Procured

For ship types now being procured for the Navy, or recently procured for the Navy, naming rules (and exceptions thereto) are summarized below. The July 2012 Navy report to Congress discusses current naming rules (and exceptions thereto) at length.

Aircraft Carriers

The July 2012 Navy report to Congress states that “while carrier names are still ‘individually considered,’ they are now generally named in honor of past US Presidents.”¹⁹ Of the 14 most recently named aircraft carriers (those with hull numbers 67 through 80), 10 have been named for U.S. Presidents and 2 for Members of Congress.

The Navy on May 29, 2011, announced that the aircraft carrier CVN-79 would be named for President John F. Kennedy.²⁰

The Navy on December 1, 2012, announced that the aircraft carrier CVN-80 would be named *Enterprise*. The Navy made the announcement on the same day that it deactivated the 51-year-old aircraft carrier CVN-65, also named *Enterprise*.²¹ CVN-65 was the eighth Navy ship named *Enterprise*; CVN-80 is to be the ninth. CVN-80 is currently scheduled for procurement in FY2018, a budget that Congress is to consider in 2017. Naming a ship approximately five years before it is scheduled to be authorized is unusual. The closest comparable case, at least from recent years, may be the destroyer *Zumwalt* (DDG-1000), whose name was announced by President Bill Clinton on July 4, 2000.²² At the time of that announcement, Congress was considering the Navy’s proposed FY2001 budget, under which DDG-1000 was scheduled for authorization in FY2005, a budget that Congress would consider in 2004, which was then about four years in the future.²³ Congress has not yet provided any procurement or advance procurement (AP) funding for CVN-80 (the initial increment of AP funding is scheduled for

(...continued)

which characterizes the naming of the Seawolf class as a “fiasco.” For the Navy’s discussion of the Seawolf class names, see Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 46-47.

¹⁹ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 37.

²⁰ DOD News Release No. 449-11, May 29, 2011, entitled “Navy Names Next Aircraft Carrier USS John F. Kennedy,” accessed July 27, 2012, at <http://www.defense.gov/releases/release.aspx?releaseid=14523>. CVN-79 will be the second aircraft carrier named for Kennedy. The first, CV-67, was the last conventionally powered carrier procured for the Navy. CV-67 was procured in FY1963, entered service in 1968, and was decommissioned in 2007.

²¹ “Enterprise, Navy’s First Nuclear-Powered Aircraft Carrier, Inactivated,” *Navy News Service*, December 1, 2012; Hugh Lessig, “Navy Retires One Enterprise, Will Welcome Another,” *Newport News Daily Press*, December 2, 2012.

²² In response to a request from CRS for examples in recent years of ships that were named well in advance of when they were authorized, the Navy on December 7, 2012, sent an email citing the case of the *Zumwalt* and two other ships (DDG-51 and LPD-17) whose naming lead times were substantially less than that of the *Zumwalt*.

²³ The FY2006 budget submission subsequently deferred the scheduled procurement of DDG-1000 to FY2007. DDG-1000 and the second ship in the class, DDG-1001, were procured in FY2007 using split funding (i.e., two-year incremental funding) in FY2007 and FY2008.

FY2016, a budget that Congress will consider in 2015), and CVN-80 is not covered under a multiyear procurement (MYP) contract or block buy contract that would represent a fairly strong government commitment to the eventual procurement of the ship.²⁴ If CVN-80, like most Navy ships, had instead been named at about the time of its scheduled authorization, or later, it might have been named by the Secretary of the Navy who will serve under the President to be elected in November 2016. The July 2012 Navy report to Congress states that

Secretary [of the Navy Ray] Mabus values the ability to consider [aircraft] carrier names on an individual, case-by-case basis, for two reasons. First, it will allow a future Secretary to name a future fleet aircraft carrier for someone or something other than a former President. Indeed, Secretary Mabus has a particular name in mind. With the scheduled decommissioning of USS Enterprise (CVN 65), perhaps the most famous ship name in US Navy history besides USS Constitution will be removed from the Naval Vessel Register. Secretary Mabus believes this circumstance could be remedied by bestowing the Enterprise's storied name on a future carrier.²⁵

In addition, if CVN-80 had been named at about the time of its scheduled authorization, or later, the 113th and 114th Congresses would have had an opportunity to express views concerning potential names for the ship.

Prior to the naming of CVN-80, the most recent carrier that was not named for a President or Member of Congress was the second of the 14 most recently named carriers, *Nimitz* (CVN-68), which was procured in FY1967.²⁶

Attack Submarines

Virginia (SSN-774) class attack submarines are being named for states. An exception occurred on January 8, 2009, when then-Secretary of the Navy Donald Winter announced that SSN-785 would be named for former Senator John Warner.²⁷ Another exception occurred on January 9, 2014, when Secretary of the Navy Ray Mabus announced that SSN-795, the second of the two Virginia-

²⁴ For more on MYP and block buy contracting, see CRS Report R41909, *Multiyear Procurement (MYP) and Block Buy Contracting in Defense Acquisition: Background and Issues for Congress*, by (name redacted) and (name redacted).

²⁵ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 37. See also the discussion in footnote 8.

²⁶ CVN-68 was named for Fleet Admiral Chester Nimitz, a five-star admiral who commanded U.S. and allied forces in the Pacific in World War II. Nimitz died in 1966, the same year that Congress considered the FY1967 defense budget that funded the procurement of CVN-68.

²⁷ DOD News Release No. 016-09, January 8, 2009, entitled "Navy Names Virginia Class Submarine USS John Warner," accessed July 27, 2012, at <http://www.defense.gov/releases/release.aspx?releaseid=12431>. Warner served as a sailor in World War II, as a Marine in the Korean War, as Under Secretary of the Navy in 1969-1972, and as Secretary of the Navy in 1972-1974. Warner served as a Senator from January 2, 1979, to January 3, 2009. He was a longtime Member of the Senate Armed Services Committee, and was for several years the chairman of that committee. Winter's January 8, 2009, announcement assigned a name to SSN-785 eleven months before the ship was fully funded. (The ship was fully funded by the FY2010 Department of Defense (DOD) appropriations act [H.R. 3326/P.L. 111-118], which was signed into law on December 19, 2009.) Naming a ship almost a year before it is funded is unusual. Winter stepped down as Secretary of the Navy on March 13, 2009. If SSN-785 had not been named for Warner, the 111th Congress might have had an opportunity to consider whether CVN-79, the next Ford-class carrier, should be named for Warner. One observer has argued that in light of Warner's record and past traditions for naming Navy ships, "he should be honored by an aircraft carrier (two CVNs [nuclear-powered aircraft carriers] have been named for Members of Congress) or possibly the lead ship for the planned class of CG(X) cruisers—but not a submarine." (Norman Polmar, "Misnaming Navy Ships (Again)," *U.S. Naval Institute Proceedings*, February 2009: 89.)

class boats procured in FY2015, would be named for Admiral Hyman G. Rickover, who served for many years as director of the Navy's nuclear propulsion program.²⁸

As of March 23, 2016, the Navy has announced names for all Virginia-class boats through SSN-799, the second of two Virginia-class boats scheduled for procurement FY2017, and for SSN-801, the second of two Virginia-class boats scheduled for procurement in FY2018. The Navy as of March 23, 2016, has not announced a name for SSN-800, the first of two Virginia-class boats scheduled for procurement in FY2018. It is not clear why the Navy has skipped over SSN-800 in its Virginia-class naming announcements.

Destroyers

Destroyers traditionally have been named for famous U.S. naval leaders and distinguished heroes. The July 2012 Navy report to Congress discusses this tradition and states more specifically that destroyers are being named for deceased members of the Navy, Marine Corps, and Coast Guard, including Secretaries of the Navy. Recent exceptions (all of which involve Arleigh Burke [DDG-51] class destroyers) include the following: On May 7, 2012, the Navy announced that it was naming DDG-116 for a living person, Thomas Hudner.²⁹ On May 23, 2013, the Navy announced that it was naming DDG-117 for a living person, Paul Ignatius, and that it was naming DDG-118 for the late Senator Daniel Inouye, who served in the U.S. Army during World War II, and who died on December 17, 2012.³⁰ On March 31 and April 5, 2016, it was reported that the Navy was naming DDG-120 for a living person, former Senator Carl Levin.³¹

As of March 23, 2016, the Navy had posted names for DDG-51 class destroyers up through DDG-120, and had not yet posted names for DDGs 121 and 122, the two DDG-51s procured in FY2015, and DDGs 123 and 124, the two DDGs procured in FY2016.

Littoral Combat Ships (LCSs)

Littoral Combat Ships (LCSs) were at first named for U.S. mid-tier cities, small towns, and other U.S. communities.³² The naming convention for LCSs was later adjusted to regionally important U.S. cities and communities. An exception occurred on February 10, 2012, when the Navy announced that it was naming LCS-10 for former Representative Gabrielle Giffords.³³ As of March 23, 2016, the Navy had posted names for all LCSs up through LCS-24.

²⁸ DOD News Release No. NR-009-15, January 9, 2015, entitled "Navy Names New Virginia-Class Attack Submarine," accessed January 9, 2015, at <http://www.defense.gov/releases/release.aspx?releaseid=17102>. As discussed elsewhere in this report (see footnote 13, **Table 2**, and the section entitled "Congressional Influence on Pending Navy Ship-Naming Decisions"), a previous attack submarine—the Los Angeles-class submarine SSN-709—was named for Rickover.

LHA-6 Class Amphibious Assault Ships

Amphibious assault ships are being named for important battles in which U.S. Marines played a prominent part, and for famous earlier U.S. Navy ships that were not named for battles. The Navy announced on June 27, 2008, that the first LHA-6 class amphibious assault ship would be named *America*, a name previously used for an aircraft carrier (CV-66) that served in the Navy from 1965 to 1996. The Navy announced on May 4, 2012, that LHA-7, the second ship in the class, would be named *Tripoli*, the location of famous Marine battles in the First Barbary War.³⁴ The Navy reaffirmed this name selection with a more formal announcement on May 30, 2014.³⁵

LPD-17 Class Amphibious Ships

San Antonio (LPD-17) class amphibious ships are being named for major U.S. cities and communities (with major being defined as being one of the top three population centers in a state), and cities and communities attacked on September 11, 2001. An exception occurred on April 23, 2010, when the Navy announced that it was naming LPD-26, the 10th ship in the class, for the late Representative John P. Murtha.³⁶ As of March 23, 2016, the Navy had not posted a name for LPD-28, the 12th ship in the class, which was procured in FY2016.

John Lewis (TAO-205) Class Oilers, Previously Called TAO(X)s

On January 6, 2015, Secretary of the Navy Ray Mabus announced that TAO-205 class oilers, previously known as TAO(X)s, will be named for “people who fought for civil rights and human rights,”³⁷ and that the first ship in the class, TAO-205, which was procured in FY2016, will be named for Representative John Lewis.³⁸ The Navy wants to procure a total of 17 TAO-205 class ships.³⁹

TAKE-1 Class Dry Cargo and Ammunition Ships

The Navy’s 14 Lewis and Clark (TAKE-1) class cargo and ammunition ships were named for famous American explorers, trailblazers, and pioneers. The Navy announced on October 9, 2009, that the 13th ship in the class was being named for the civil rights activist Medgar Evers.⁴⁰ The

Navy announced on May 18, 2011, that the 14th ship in the class would be named for civil rights activist Cesar Chavez.⁴¹

Expeditionary Fast Transports (EPFs), Previously Called Joint High Speed Vessels (JHSVs)

Expeditionary Fast Transports (EPFs), which were previously called Joint High Speed Vessels (JHSVs), and which until May 2011 were being procured by the Army as well as by the Navy, were at first named for American traits and values. In December 2009, the naming convention for EPFs was changed to small U.S. cities. At some point between December 2010 and October 2011, it was adjusted to small U.S. cities and counties.⁴² As of March 23, 2016, the Navy had not posted a name for the 12th EPF, which was procured in FY2016.

Expeditionary Transport Docks (ESDs) and Expeditionary Sea Bases (ESBs), Previously Called Mobile Landing Platform (MLP) Ships and Afloat Forward Staging Bases (AFSBs)

The Navy's Expeditionary Transport Docks (ESDs) and Expeditionary Sea Bases (ESBs), which were previously called Mobile Landing Platform (MLP) ships and Afloat Forward Staging Bases (AFSBs), respectively, are being named for famous names or places of historical significance to U.S. Marines. Two of these ships have been named for living persons—ESD-2, which was named *John Glenn*, and ESB-4, which was named for Hershel “Woody” Williams (see “Ships Named for Living Persons”). As of March 23, 2016, the Navy had not posted a name for its third ESB (ESB-5), which was procured in FY2016.

State Names That Have Not Been Used in a Long Time

It has been a long time since ships named for certain states were last in commissioned service with the Navy as combat assets. While there is no rule requiring the Navy, in selecting state names for ships, to choose states for which the most time has passed since a ship named for the state has been in commissioned service with the Navy as a combat asset, advocates of naming a ship for a certain state may choose to point out, among other things, the length of time that has transpired since a ship named for the state has been in commissioned service with the Navy as a combat asset.

In its announcement of April 13, 2012, that the Navy was naming the Virginia class attack submarines SSNs 786 through 790 for Illinois, Washington, Colorado, Indiana, and South Dakota, respectively, the Department of Defense stated, “None of the five states has had a ship named for it for more than 49 years. The most recent to serve was the battleship *Indiana*, which was

(...continued)

discussion of this naming choice, see Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 21-22.

⁴¹ DOD News Release No. 420-11, May 18, 2011, entitled “Navy Names Ship For Civil Rights Activist Cesar Chavez,” accessed July 27, 2012, at <http://www.defense.gov/releases/release.aspx?releaseid=14504>. For the Navy's discussion of this naming choice, see Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 22-24.

⁴² Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 18-19.

decommissioned in October 1963.”⁴³ The July 2012 Navy report to Congress states: “Before deciding on which names to select [for the five submarines], Secretary [of the Navy Ray] Mabus asked for a list of State names that had been absent the longest from the US Naval Register...”⁴⁴

In its announcement of November 19, 2012, that the Navy was naming the Virginia class attack submarine SSN-791 for Delaware, the Department of Defense quoted Secretary Mabus as saying, “It has been too long since there has been a USS Delaware in the fleet....”⁴⁵

A Navy News service article about the Navy’s September 18, 2014, announcement that the Virginia class attack submarine SSN-792 was being named for Vermont stated that “This is the first ship named for Vermont since 1920[,] when the second USS Vermont was decommissioned.”⁴⁶

A Navy News service article about the Navy’s October 10, 2014, announcement that the Virginia class attack submarine SSN-793 was being named for Oregon stated that the previous USS *Oregon* “was a battleship best known for its roles in the Spanish American War when it helped destroy Admiral Cervera’s fleet and in the Philippine-American War; it performed blockade duty in Manila Bay and off Lingayen Gulf, served as a station ship, and aided in the capture of Vigan.”⁴⁷

A Navy News service article about the Navy’s January 19, 2016, announcement that the Virginia-class attack submarine SSN-801 was being named for Vermont stated, “The future USS Utah will be the second naval vessel to bear the name; the first, a battleship designated BB-31, was commissioned in 1911 and had a long, honorable time in service.... While conducting anti-gunnery exercises in Pearl Harbor, BB-31 was struck by a torpedo and capsized during the initial stages of the Japanese attack [on December 7, 1941]. She was struck from the Navy record Nov. 13, 1944 and received a battle star for her service in World War I.”⁴⁸

The Navy’s naming announcements for Virginia-class submarines have reduced the group of states for which several decades had passed since a ship named for the state had been in commissioned service with the Navy as a combat asset, and for which no ship by that name is currently under construction. This group used to include Illinois, Delaware, Vermont, Oregon, and Montana, but Virginia-class attack submarines have now been named for these states. (See the Virginia-class attack submarine naming announcements of April 13, 2012; November 19, 2012; September 18, 2014; October 10, 2014; and September 2, 2015, respectively.)

As shown in **Table 1**, the three states for which the most time now appears to have passed since a ship named for the state has been in commissioned service with the Navy as a combat asset, and

⁴⁶ “SECNAV Names Virginia-class Submarine, USS Vermont,” *Navy News Service*, September 18, 2014, accessed September 19, 2014, at http://www.navy.mil/submit/display.asp?story_id=83391.

⁴⁷ “Secretary of the Navy Ray Mabus Names Virginia-Class Submarine USS Oregon,” *Navy News Service*, October 10, 2014, accessed October 22, 2014, at http://www.navy.mil/submit/display.asp?story_id=83809.

⁴⁸ “Secretary of the Navy Ray Mabus Names Virginia-Class Submarine,” *Navy News Service*, January 19, 2016, accessed January 20, 2016, at: http://www.navy.mil/submit/display.asp?story_id=92743. BB-31 was decommissioned on September 5, 1944, and then struck from the navy record on November 13, 1944.

for which no ship by that name is currently under construction, are Kansas, Arizona, and Oklahoma.

Table 1. State Names That Have Not Been Used in a Long Time

State	Most recent ship named for that state	Notes
Kansas	The battleship Kansas (BB-21), decommissioned in 1921	The Littoral Combat Ship Kansas City (LCS-22) is under construction.
Arizona	The battleship Arizona (BB-39), decommissioned 1941	BB-39 was decommissioned on December 29, 1941, following its sinking in the Japanese attack on Pearl Harbor on December 7, 1941. BB-39 now serves as a memorial.
Oklahoma	The battleship Oklahoma (BB-37), decommissioned in 1944	BB-37 was sunk in the Japanese attack on Pearl Harbor on December 7, 1941. The ship was raised and surveyed. It was found to be too economical to repair, and was decommissioned in 1944. The attack submarine Oklahoma City (SSN-723) entered service in 1988 and will reach the end of its 33-year expected service life in 2021.

Ships Named for Living Persons

The Navy historically has only rarely named ships for living persons. The Navy stated in February 2012 that

The Navy named several ships for living people (ex. George Washington, Ben Franklin, etc.) in the early years of our Republic. The Naval History and Heritage Command (NHHC) believes that the last ship to be named by the Navy in honor of a living person prior to [the aircraft carrier] CARL VINSON (CVN-70) was the brig JEFFERSON (launched in April 1814). Between 1814 and November 18, 1973, when President Nixon announced the naming of CARL VINSON,⁴⁹ NHHC does not believe that any ships had been named for a living person by the Navy as NHHC does not have records that would indicate such.⁵⁰

The July 2012 Navy report to Congress, noting a case from 1900 that was not included in the above passage, states that

the practice of naming ships in honor of deserving Americans or naval leaders while they are still alive can be traced all the way back to the Revolutionary War. At the time, with little established history or tradition, the young Continental Navy looked to honor those who were fighting so hard to earn America's freedom. Consequently, George Washington had no less than five ships named for him before his death; John Adams and James Madison, three apiece; John Hancock, two; and Benjamin Franklin, one.

The practice of naming ships after living persons was relatively commonplace up through 1814, when a US Navy brig was named in honor of Thomas Jefferson. However, after the War of 1812, with the US Navy older and more established, and with the list of famous Americans and notable naval heroes growing ever longer, the practice of naming ships after living persons fell into disuse. Indeed, the only exception over the next 150 years

⁴⁹ Although President Nixon announced on November 18, 1973 that CVN-70 would be named for Carl Vinson, as shown in **Table 2**, the name apparently was officially given to the ship on January 18, 1974.

⁵⁰ Navy information paper dated February 28, 2012, provided to CRS by Navy Office of Legislative Affairs, March 1, 2012.

came in 1900, when the Navy purchased its first submarine from its still living inventor, John Philip Holland, and Secretary of the Navy John D. Long named her USS Holland (SS 1) in his honor....

[In the early 1970s], however, Department of the Navy leaders were considering the name for CVN 70. Secretary of the Navy John Warner knew the 93rd Congress had introduced no less than three bills or amendments (none enacted) urging that CVN 70 be named for in honor of Carl Vinson, who served in the House for 50 years and was known as the “Father of the Two-Ocean Navy.” Although Secretary Warner felt Congressman Vinson was more than worthy of a ship name, the former Congressman was still alive. Naming a ship for this giant of naval affairs would therefore violate a 160-year old tradition. After considering the pros and cons of doing so, Secretary Warner asked President Richard Nixon’s approval to name CVN 70 for the 90-year old statesman. President Nixon readily agreed. Indeed, he personally announced the decision on January 18, 1974....

In hindsight, rather than this decision being a rare exception, it signaled a return to the Continental Navy tradition of occasionally honoring famous living persons with a ship name. Since then, and before the appointment of current Secretary of the Navy Ray Mabus, Secretaries of the Navy have occasionally chosen to follow this new, “old tradition,” naming ships in honor of still living former Presidents Jimmy Carter, Ronald Reagan, George H.W. Bush, and Gerald R. Ford; Secretary of the Navy Paul Nitze; Navy Admirals Hyman G. Rickover, Arleigh Burke, and Wayne E. Meyer; Senators John C. Stennis and John Warner; and famous entertainer Bob Hope. Moreover, it is important to note that three of these well-known Americans—Gerald R. Ford, John C. Stennis, and Bob Hope—were so honored after Congress enacted provisions in Public Laws urging the Navy to do so. By its own actions, then, Congress has acknowledged the practice of occasionally naming ships for living persons, if not outright approved of it.

In other words, while naming ships after living persons remains a relatively rare occurrence—about three per decade since 1970—it is now an accepted but sparingly used practice for Pragmatic Secretaries [of the Navy] of both parties. For them, occasionally honoring an especially deserving member of Congress, US naval leader, or famous American with a ship name so that they might end their days on earth knowing that their life’s work is both recognized and honored by America’s Navy-Marine Corps Team, and that their spirit will accompany and inspire the Team in battle, is sometimes exactly the right thing to do.⁵¹

As shown in **Table 2**, since the naming of CVN-70 for Carl Vinson in 1974, at least 18 U.S. military ships have been named for persons who were living at the time the name was announced. Seven of the 18 have been announced since January 2012; three of the 18 have been announced in 2016.

⁵¹ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 7-9.

Table 2. Ships Since 1973 Named for Persons Who Were Living at the Time

Ship type	Hull number	Ship name	Date name announced	Age of person when name was announced	Fiscal year ship was procured	Year ship entered or is to enter service
Aircraft carrier	CVN-70	<i>Carl Vinson</i>	1/18/1974	90	FY1974	1982

Destroyer	DDG-120	<i>Carl Levin</i>	3/31/16	81	FY2013	2020

Source: Compiled by CRS. Source for dates when names were announced for CVN-70 through DDG-108: Navy Office of Legislative Affairs email to CRS, May 1, 2012. Sources for dates when names of ships after DDG-108 were announced: Navy announcements and news accounts on the naming of those ships.

- a. This was the date that President Reagan announced that the ship would be named for Stennis. The Navy officially named the ship for Stennis on December 19, 1988.
- b. SSN-23 was originally procured in FY1992. Its procurement was suspended, and then reinstated in FY1996.

Public's Role in Naming Ships

Members of the public are sometimes interested in having Navy ships named for their own states or cities, for earlier U.S. Navy ships (particularly those on which they or their relatives served), for battles in which they or their relatives participated, or for people they admire. Citizens with such an interest sometimes contact the Navy, the Department of Defense, or Congress seeking support for their proposals. An October 2008 news report, for example, suggested that a letter-writing campaign by New Hampshire elementary school students that began in January 2004 was instrumental in the Navy's decision in August 2004 to name a Virginia-class submarine after the state.⁵² The July 2012 Navy report to Congress states:

In addition to receiving input and recommendations from the President and Congress, every Secretary of the Navy receives numerous requests from service members, citizens, interest groups, or individual members of Congress who want to name a ship in honor of a particular hometown, or State, or place, or hero, or famous ship. This means the

⁵² Dean Lohmeyer, "Students Who Helped Name the Navy's Newest Sub Tour State's Namesake," *Navy News Service*, October 25, 2008.

“nomination” process is often fiercely contested as differing groups make the case that “their” ship name is the most fitting choice for a Secretary to make.⁵³

Members of the public may also express their opposition to an announced naming decision. The July 2012 Navy report to Congress cites and discusses five recent examples of ship-naming decisions that were criticized by some observers: the destroyer DDG-1002 (named for President Lyndon Johnson), the Littoral Combat Ship LCS-10 (named for former Representative Gabrielle Giffords), the amphibious ship LPD-26 (named for late Representative John P. Murtha), the auxiliary ship TAKE-13 (named for Medgar Evers), and the auxiliary ship TAKE-14 (named for Cesar Chavez).⁵⁴

Congress’s Role in Naming Ships

Congressional Influence on Pending Navy Ship-Naming Decisions

Congress has long maintained an interest in how Navy ships are named,⁵⁵ and has influenced or may have influenced pending Navy decisions on the naming of certain ships, including but not limited to the following:

- One source states that “[the aircraft carriers] CVN 72 and CVN 73 were named prior to their start [of construction], in part to preempt potential congressional pressure to name one of those ships for Admiral H.G. Rickover ([instead,] the [attack submarine] SSN 709 was named for the admiral).”⁵⁶
- There was a friendly rivalry of sorts in Congress between those who supported naming the aircraft carrier CVN-76 for President Truman and those who supported naming it for President Reagan; the issue was effectively resolved by a decision announced by President Clinton in February 1995 to name one carrier (CVN-75) for Truman and another (CVN-76) for Reagan.⁵⁷
- One press report suggests that the decision to name CVN-77 for President George H. W. Bush may have been influenced by a congressional suggestion.⁵⁸
- Section 1012 of the FY2007 John Warner National Defense Authorization Act (H.R. 5122/P.L. 109-364 of October 17, 2006), expressed the sense of the Congress that the aircraft carrier CVN-78 should be named for President Gerald

⁵³ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 12-13.

⁵⁴ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, p. 15.

⁵⁵ For example, the 1819 and 1858 laws cited in footnote 4 set forth naming rules for certain kinds of ships. Today, 10 U.S.C. §7292(b) still requires that battleships (which the United States has not built since World War II) be named after states.

⁵⁶ *The Naval Institute Guide to the Ships and Aircraft of the U.S. Fleet*, op cit, p. 113. See also p. 70 and p. 86.

⁵⁷ Patrick Pexton, “Clinton Compromise: Carriers Truman And Reagan,” *Navy Times*, February 13, 1995: 19. See also “Navy Announces Aircraft Carrier To Be Named For President Truman,” *Associated Press*, February 2, 1995. CVN-75 had been preliminarily named the United States.

⁵⁸ The article, which reported on the ship’s official naming ceremony, states: “[Senator] Warner recalled that he first suggested naming a carrier in the senior Bush’s honor last year [i.e., in 2001], during a ceremony in Newport News to christen the [previous] carrier Ronald Reagan.” (Dale Eisman, “Navy Names New Aircraft Carrier For Elder Bush,” *Norfolk Virginian-Pilot*, December 10, 2002.)

R. Ford. The Navy announced on January 16, 2007, that CVN-78 would be named Gerald R. Ford.

- In the 111th Congress, H.Res. 1505, introduced on July 1, 2010, expressed the sense of the House of Representatives that the Secretary of the Navy should name the next appropriate naval ship in honor of John William Finn. The measure was not acted on after being referred to the House Armed Services Committee. On February 15, 2012, the Navy announced that DDG-113, an Arleigh Burke (DDG-51) class destroyer, would be named *John Finn*.⁵⁹
- Section 1012 of the FY2012 National Defense Authorization Act (H.R. 1540/P.L. 112-81 of December 31, 2011) expressed the sense of Congress that the Secretary of the Navy is encouraged to name the next available naval vessel after Rafael Peralta. On February 15, 2012, the Navy announced that DDG-113, an Arleigh Burke (DDG-51) class destroyer, would be named *Rafael Peralta*.⁶⁰

The July 2012 Navy report to Congress states that

every Secretary of the Navy, regardless of point of view [on how to name ships], is subject to a variety of outside influences when considering the best names to choose. The first among these comes from the President of the United States, under whose direction any Secretary works...

Secretaries of the Navy must also consider the input of Congress.... Given the vital role Congress plays in maintaining the Navy-Marine Corps Team, any Secretary is sure to respect and consider its input when considering ships names.

Sometimes, the Secretary must also balance or contend with differences of opinion between the President and Congress.⁶¹

The Navy suggests that congressional offices wishing to express support for proposals to name a Navy ship for a specific person, place, or thing contact the office of the Secretary of the Navy to make their support known. Congress may also pass legislation relating to ship names (see below).

Congressional Responses to Announced Navy Ship-Naming Decisions

Congress can pass legislation regarding a ship-naming decision that has been announced by the Navy. Such legislation can express Congress's views regarding the Navy's announced decision, and if Congress so desires, can also suggest or direct the Navy to take some action. The following are two examples of such legislation:

- **H.Res. 1022 of the 111th Congress** is an example of a measure reflecting support for an announced Navy ship-naming decision. This measure, introduced on January 20, 2010, and passed by the House on February 4, 2010, congratulates the Navy on its decision to name a naval ship for Medgar Evers.
- **H.Con.Res. 312 of the 97th Congress** is an example of a measure that appears to reflect disagreement with an announced Navy ship-naming decision. This measure expressed the sense of Congress that the Los Angeles (SSN-688) class

⁶⁰ DOD News Release No. 109-12, February 15, 2012, entitled "Navy Names Five New Ships," accessed July 27, 2012, at <http://www.defense.gov/releases/release.aspx?releaseid=15065>.

⁶¹ Department of the Navy, *A Report on Policies and Practices of the U.S. Navy for Naming the Vessels of the Navy*, undated but transmitted to Congress with cover letters dated July 13, 2012, pp. 11-12.

attack submarine *Corpus Christi* (SSN-705) should be renamed, and that a nonlethal naval vessel should instead be named *Corpus Christi*. (Los Angeles-class attack submarines were named for cities, and SSN-705 had been named for Corpus Christi, TX.) H.Con.Res. 312 was introduced on April 21, 1982, and was referred to the Seapower and Strategic and Critical Materials subcommittee of the House Armed Services Committee on April 28, 1982. On May 10, 1982, the Navy modified the name of SSN-705 to *City of Corpus Christi*.

An April 18, 2013, press release from Senator Angus King states:

WASHINGTON, D.C. – U.S. Senators Susan Collins and Angus King today sent a letter to Ray Mabus, the Secretary of the Navy, asking that the USS Portland, a new San Antonio-class amphibious transport dock ship named after the city of Portland, Oregon, also be named in honor of Portland, Maine, consistent with the long history and tradition of U.S. Navy ships bestowed with the name USS Portland.

Below is the full text of the letter:

Dear Secretary Mabus:

On April 12, 2013, you announced that LPD 27, a new San Antonio-class amphibious transport dock ship, will be named the USS Portland after the city of Portland, Oregon.

We were surprised that the press release did not state that the ship was also named in honor of the city of Portland, Maine. We write to ask that you clarify that the ship will also be named in honor of Portland, Maine, consistent with the long history and tradition of U.S. Navy ships bestowed with the name USS Portland.

The Department of the Navy press release stated LPD 27 will be the third ship to bear the name USS Portland. The press release failed to mention that both of the previous two ships were named, in whole or in part, to honor the city of Portland, Maine. The first USS Portland (CA-33) was the lead ship of a new class of heavy cruisers. Launched in 1932, it was named after the city of Portland, Maine, and saw battle during World War II at the 1942 Battle of the Coral Sea, the Battle of Midway, and the Battle of Guadalcanal. After accruing 16 battle stars, she was decommissioned in 1946.

The second USS Portland (LSD-37) was commissioned in 1970 and served until 2004. The ship was also named after the city of Portland, Maine, but it was also named after the city of Portland, Oregon. The ship's insignia incorporates the seals of both cities.

The third USS Portland should continue this tradition. We understand that amphibious transport dock ships are named for major American cities, and we can assure you that Portland, Maine is the largest city in Maine and the metro area is home to one-third of Maine's entire population.

Portland also has a rich naval history. South Portland is where many Liberty cargo ships were built that sustained the war effort during World War II, and 4,700 skilled shipyard workers repair Los Angeles-class and Virginia-class nuclear powered submarines one hour to the south of Portland at the Portsmouth Naval Shipyard. Portland also has the largest port in Maine, and it is home to men and women whose livelihood relies upon the ocean and its resources, as demonstrated by the historic and bustling working waterfront.

We are confident that the impressive capabilities of LPD 27 and her crew can honor Portland, Maine, without in any way reducing the simultaneous honor afforded to Portland, Oregon. In fact, part of the rich history of Portland, Oregon, is that it was named after the city in Maine. In 1845, two of the city's founders, Asa Lovejoy of Boston, and Francis Pettygrove of Portland, Maine, each wanted to name the new city after his original home town. After Pettygrove won a coin toss two out of three times, the city was

named after Portland, Maine. You can view the “Portland Penny” in person at the Oregon Historical Society in downtown Portland, Oregon.

We request that you clarify that the USS Portland will be named in honor of Portland, Maine, as well as Portland, Oregon. Given the history of both cities and the previous ships given the proud name of USS Portland, we are confident that you will agree that doing so will greatly contribute to the rich and storied history the USS Portland will carry with her as she and her crew defend our nation.⁶²

Past Legislation on Naming Ships

Table 3 shows recent enacted provisions regarding the names of Navy ships. All of these measures expressed the sense of the Congress (or of the Senate or House) about how a Navy ship should be named.

Table 3. Recent Enacted Legislative Provisions

Fiscal Year	Public Law	Bill	Section	Ship	Name(s)
2013	P.L. 113-6	H.R. 933	8119 of Division C	the next available capital warship	<i>Ted Stevens</i>
2012	P.L. 112-81	H.R. 1540	1012	the next available naval vessel	<i>Rafael Peralta</i>
2011	P.L. 111-383	H.R. 6523	1022	a combat vessel	<i>Father Vincent Capodanno</i>
2007	P.L. 109-364	H.R. 5122	1012	CVN-78	<i>Gerald R. Ford</i>
2001	P.L. 106-398	H.R. 4205	1012	CVN-77	<i>Lexington</i>
1999	P.L. 105-261	H.R. 3616	1014	an LPD-17 class ship	<i>Clifton B. Cates</i>
1996	P.L. 104-106	S. 1124	1018	LHD-7	<i>Iwo Jima</i>
1996	P.L. 104-106	S. 1124	1018	LPD-17 class amphibious ships	Marine Corps battles or members of Marine Corps
1996	P.L. 104-106	S. 1124	1019	an appropriate ship	<i>Joseph Vittori</i>
1991	P.L. 101-510	H.R. 4739	1426	the next DDG-51	<i>Samuel S. Stratton</i>
1989	P.L. 100-456	H.R. 4481	1221	the next SSBN	<i>Melvin Price</i>
1989	P.L. 100-456	H.R. 4481	1222	an appropriate ship	<i>Bob Hope</i>
1989	P.L. 100-202	H.J.Res. 395	8138	CVN-74 or CVN-75	<i>John C. Stennis</i>

Source: Prepared by CRS. All of these provisions expressed the sense of the Congress (or of the Senate or House) about how a Navy ship should be named.

Table 4 shows examples of proposed bills and amendments regarding the names of Navy ships going back to the 93rd Congress. Some of these measures expressed the sense of the Congress about how a Navy ship should be named, while others would mandate a certain name for a ship. Although few of these measures were acted on after being referred to committee, they all signaled congressional interest in how certain ships should be named, and thus may have influenced Navy decisions on these matters.

- a. H.Con.Res. 312 expressed the sense of Congress that the Los Angeles (SSN-688) class attack submarine *Corpus Christi* (SSN-705) should be renamed, and that a nonlethal naval vessel should instead be named *Corpus Christi*. (Los Angeles-class attack submarines were named for cities, and SSN-705 had been named for Corpus Christi, TX.) H.Con.Res. 312 was introduced on April 21, 1982, and was referred to the Seapower and Strategic and Critical Materials subcommittee of the House Armed Services Committee on April 28, 1982. On May 10, 1982, the Navy changed the name of SSN-705 to *City of Corpus Christi*.

Legislative Activity in 2016

DOD's proposed FY2017 budget was submitted to Congress on February 9, 2016.

Appendix A. Executive Summary of July 2012 Navy Report to Congress

This appendix reprints the executive summary of the July 2012 Navy report to Congress on the Navy's policies and practices for naming its ships. The text of the executive summary is as follows:

Executive Summary

This report is submitted in accordance with Section 1014 of P.L. 112-81, National Defense Authorization Act (NDAA) for Fiscal Year 2012, dated 31 December 2011, which directs the Secretary of Defense to submit a report on "policies and practices of the Navy for naming vessels of the Navy."

As required by the NDAA, this report:

- Includes a description of the current policies and practices of the Navy for naming vessels of the Navy, and a description of the extent to which these policies and practices vary from historical policies and practices of the Navy for naming vessels of the Navy, and an explanation for such variances;
- Assesses the feasibility and advisability of establishing fixed policies for the naming of one or more classes of vessels of the Navy, and a statement of the policies recommended to apply to each class of vessels recommended to be covered by such fixed policies if the establishment of such fixed policies is considered feasible and advisable; and
- Identifies any other matter relating to the policies and practices of the Navy for naming vessels of the Navy that the Secretary of Defense considers appropriate.

After examining the historical record in great detail, this report concludes:

- Current ship naming policies and practices fall well within the historic spectrum of policies and practices for naming vessels of the Navy, and are altogether consistent with ship naming customs and traditions.
- The establishment of fixed policies for the naming of one or more classes of vessels of the Navy would be highly inadvisable. There is no objective evidence to suggest that fixed policies would improve Navy ship naming policies and practices, which have worked well for over two centuries.

In addition, the Department of the Navy used to routinely publish lists of current type naming conventions for battle force ships, and update it as changes were made to them. At some point, this practice fell into disuse, leading to a general lack of knowledge about naming conventions. To remedy this problem, the Naval History and Heritage Command will once again develop and publish a list of current type naming conventions to help all Americans better understand why Secretaries of the Navy choose the ship names they do. This list will be updated as required.⁶³
