On February 24, 2022, the Russian Federation invaded Ukraine, with wide-ranging implications for U.S. national security and an array of global geopolitical and economic issues. This report compiles CRS products on various aspects of this conflict, and will be updated regularly as new products are developed. It also includes some products published before the invasion that offer relevant background and context.

To contact specific CRS experts please see the author information on each of the products below, or consult CRS Report R47036, *Russia's Invasion of Ukraine in 2022 and Related Policy Issues: CRS Experts*, coordinated by Julie Kim.
